

OnLine™

Interface®

On Line™

---

On Line is the new graphic standard for the floor with its pure color and bold proportions. Go for color blocking—create a big splash or try colors that clash. Explore the fundamentals of flattery—earthy shades are the perfect companions to ground a brighter hue.

Vivid or subdued, On Line has the right shape to support the design. The Skinny Planks™ installed in ashlar method will present a broadloom look but with all the pluses of modular. A mixed composition of colors (note: add other styles and tile dimensions, too!), will bring an entirely different energy to the interior. In On Line, there is a broad spectrum of possibilities in service to your design and the identity you've imagined for your client.

## Specifications

---

Modular, 25cm x 1m	138700AK00
Backing System	GasBac® Tile
Yarn Manufacturer	Aqual
Yarn System	100% Recycled Content Type 6 Nylon
Color System	100% Solution Dyed
Construction	Tufted Textured Loop
Lifetime Antimicrobial	Intersept®
Soil/Stain Protection	Protek1®
Pile Thickness	0.100 in., 2.5 mm
Pile Density	6,480
Total Recycled Content	62%
Indoor Air Quality	CRI Green Label Plus #GLP0820

PRODUCT ON LINE COLORS 103786 INK, 105272 BERRY INSTALLED PATTERN BY TILE

## Why Our Modular Carpet?

### Modular Carpet Tile

**Performance and Flexibility.** Interface's standard backing systems set the industry standard for modular performance. Tiles stay on the floor with no upcurl, no tapping and no rippling effect, yet are easy to selectively replace. Our modular carpet is also easier to handle, install and maintain than bulky roll carpet. And, it installs with less waste so you save time and money — 3-4% for typical modular carpet compared to an average waste factor of 14% for traditional roll carpet.

### Samples

Order samples at [www.interface.com](http://www.interface.com). You'll receive email order confirmations, 24/7 access to order status and more. Not near a computer? You can also request samples by calling one of the numbers below.

United States 1.877.605.1500	Canada 1.866.398.3192
Brazil + 55 11 2196 0900	Latin America + 52 55 6395 5100

### Cool Carpet™

#### The Low Carbon Option

Help stop climate change. ALL Interface modular carpet sold in North America is third party verified climate neutral Cool Carpet. We start by using low-carbon materials and manufacturing processes, then Cool Carpet zeros out all remaining greenhouse gas (GHG) emissions associated with the entire lifecycle of your carpet, from raw material extraction through use and recycling. And climate neutral Cool Carpet may be eligible for a USGBC or CaGBC LEED Innovation Credit.

### TacTiles®

#### No Glue Installation.

Our revolutionary TacTiles installation system eliminates the need for glue, adhering tiles securely together to form a floor that "floats" for greater flexibility, easier replacement and long-term performance. The result? Less mess, less waste and virtually no VOCs, not to mention an environmental footprint that is over 90% lower than that of traditional glue adhesives.

### InterCircle™ Sample Return

Help us close the loop on the carpet sampling process. Through our InterCircle Sample Return program, sample materials stay out of the landfill and are re-used as samples until it is time to recycle them into new carpet. By reducing sample production material and diverting old materials from the landfill, we can reduce our overall environmental footprint.

Call 1.877.605.1500 (U.S.) or 1.866.398.3192 (Canada) to order a sample return bag with a prepaid return label.

## Third Party Certification

### cool carpet™

**Cool Carpet** – Our third party verified carbon offset program zeroes out all greenhouse gas (GHG) emissions associated with the entire lifecycle of your carpet.

**Environmental Product Declaration (EPD)** – A statement of product ingredients and environmental impacts over the entire life cycle of a product. A comprehensive life cycle assessment (LCA) is performed to ISO standards to develop an EPD, after which both the EPD and LCA must be third party verified.

**Sustainable Assessment for Carpet** – The only carpet sustainability standard in North America that evaluates the environmental impact of carpet for its entire lifecycle.

**CRI Green Label Plus** – An independent testing program that identifies carpet and adhesives with very low emissions of VOCs to help improve indoor air quality.

**Intersept®**

*Mold Protection.* Our proprietary preservative, Intersept, protects our modular carpet against mold growth and odor-causing bacteria — guaranteed. Intersept treated carpet, with proper maintenance, shows no mold or bacterial growth when tested per the ASTM E2471 Standard Test Method. Intersept is EPA approved for safe use in carpet, water insoluble and contains no halogens, heavy metals, phenols or formaldehyde.

**ReEntry®**

*Recyclable is Now a Reality.* Through our ReEntry program and partnerships with our fiber suppliers and recycling centers throughout North America, separated Type 6 and 6,6 nylon are recycled into new 6 and 6,6 nylon, while separated GlasBac® and similar competitor backings are recycled into GlasBac®RE non-virgin PVC backing using our Cool Blue™ technology. The result? Products with up to 81% total recycled content, including as much as 35% post-consumer content.

**Sustainable Choice**

*Environmental Responsibility.* Interface was the industry's first to publish an EPD (Environmental Product Declaration), which evaluates consistent factors based on full lifecycle assessment (LCA). We now have published EPDs for more than 99% of our products globally.

In addition, all Interface products with GlasBac®RE backing meet the Platinum level of the NSF/ANSI 140 Sustainable Assessment for Carpet. GlasBac® or NexStep® backed products meet the Gold level. All may contribute toward a USGBC or CaGBC LEED Innovation Credit.

All product specifications reflect averages derived from product sample testing, are subject to normal manufacturing and testing tolerances and inherent pattern variances, and may be changed without notice. For more information about these and other important attributes of the product(s) described herein, including recycled content and product warranty information, please see [www.interface.com/disclaimer](http://www.interface.com/disclaimer).

Printed on 50% post consumer waste (PCW) fiber manufactured using wind power.

We have tried our very best to accurately represent product colors. However, due to the nature of printed materials, color of actual products may vary slightly. Please request a sample to see actual product color.
